I value the richness of my diverse background that enhances my ability to think creatively and adapt to new situations...

Ankit Kumar is a Software Developer

—specialized in frontend development

Privileged working with Start-ups,
fostering innovation & growth.

Over the past three years, I've been specialized in mobile and web application development, contributing to companies and entrepreneurs to develop and expand their businesses across Sweden, Germany, Dubai and India.

Worked on a diverse range of projects including B2B, SaaS, etc where I have successfully increased user engagement, growth and quality, that's what I'm passionate about.

From ground-breaking initiatives to game-changing projects, I have consistently elevated the standards of user experience, empowering businesses to reach new heights.

Previous Workplaces

Sugoi Labs Pvt Ltd (Apr 2022 - Mar 2024)

Product Development Engineer

The Neuron Club (Sep 2021 - Feb 2022)

Full Stack Web Developer

CodSoft (Jan 2021 - Jul 2022)

JavaScript Developer

Technology Stack:

HTML, CSS, JavaScript, TypeScript, ReactJS, React Native NextJS, WebGL, Redux, React Query, Node.js, Next.js, PostgreSQL, MongoDB, GIT, AWS

Significant contribution to more than 15 projects over the years

Privileged to earn the trust of industry leaders, allowing me to shape irresistible user experiences for their cutting-edge products.

Aqress

Smarter way to access spaces

To the pressing need to modernize and digitize employee access systems within organizations, led the team of 4 developers, implemented frontend and crucial security algorithms with the backend team for the development of Aqress.

By integrating QR-based employee access management and real-time monitoring, developed a comprehensive solution that significantly reached accuracy more than 95%, achieving a new standard in organizational security and operational efficiency.

Core Features

- Role based authorization
- QR based access
- Admin monitoring
- Unique domain for individuals

Role Included

- UX Research
- Frontend Development
- API Development
- Team Leadership

ANKIT PORTFOLIO

The collage displays six different screens of the Aqress app:

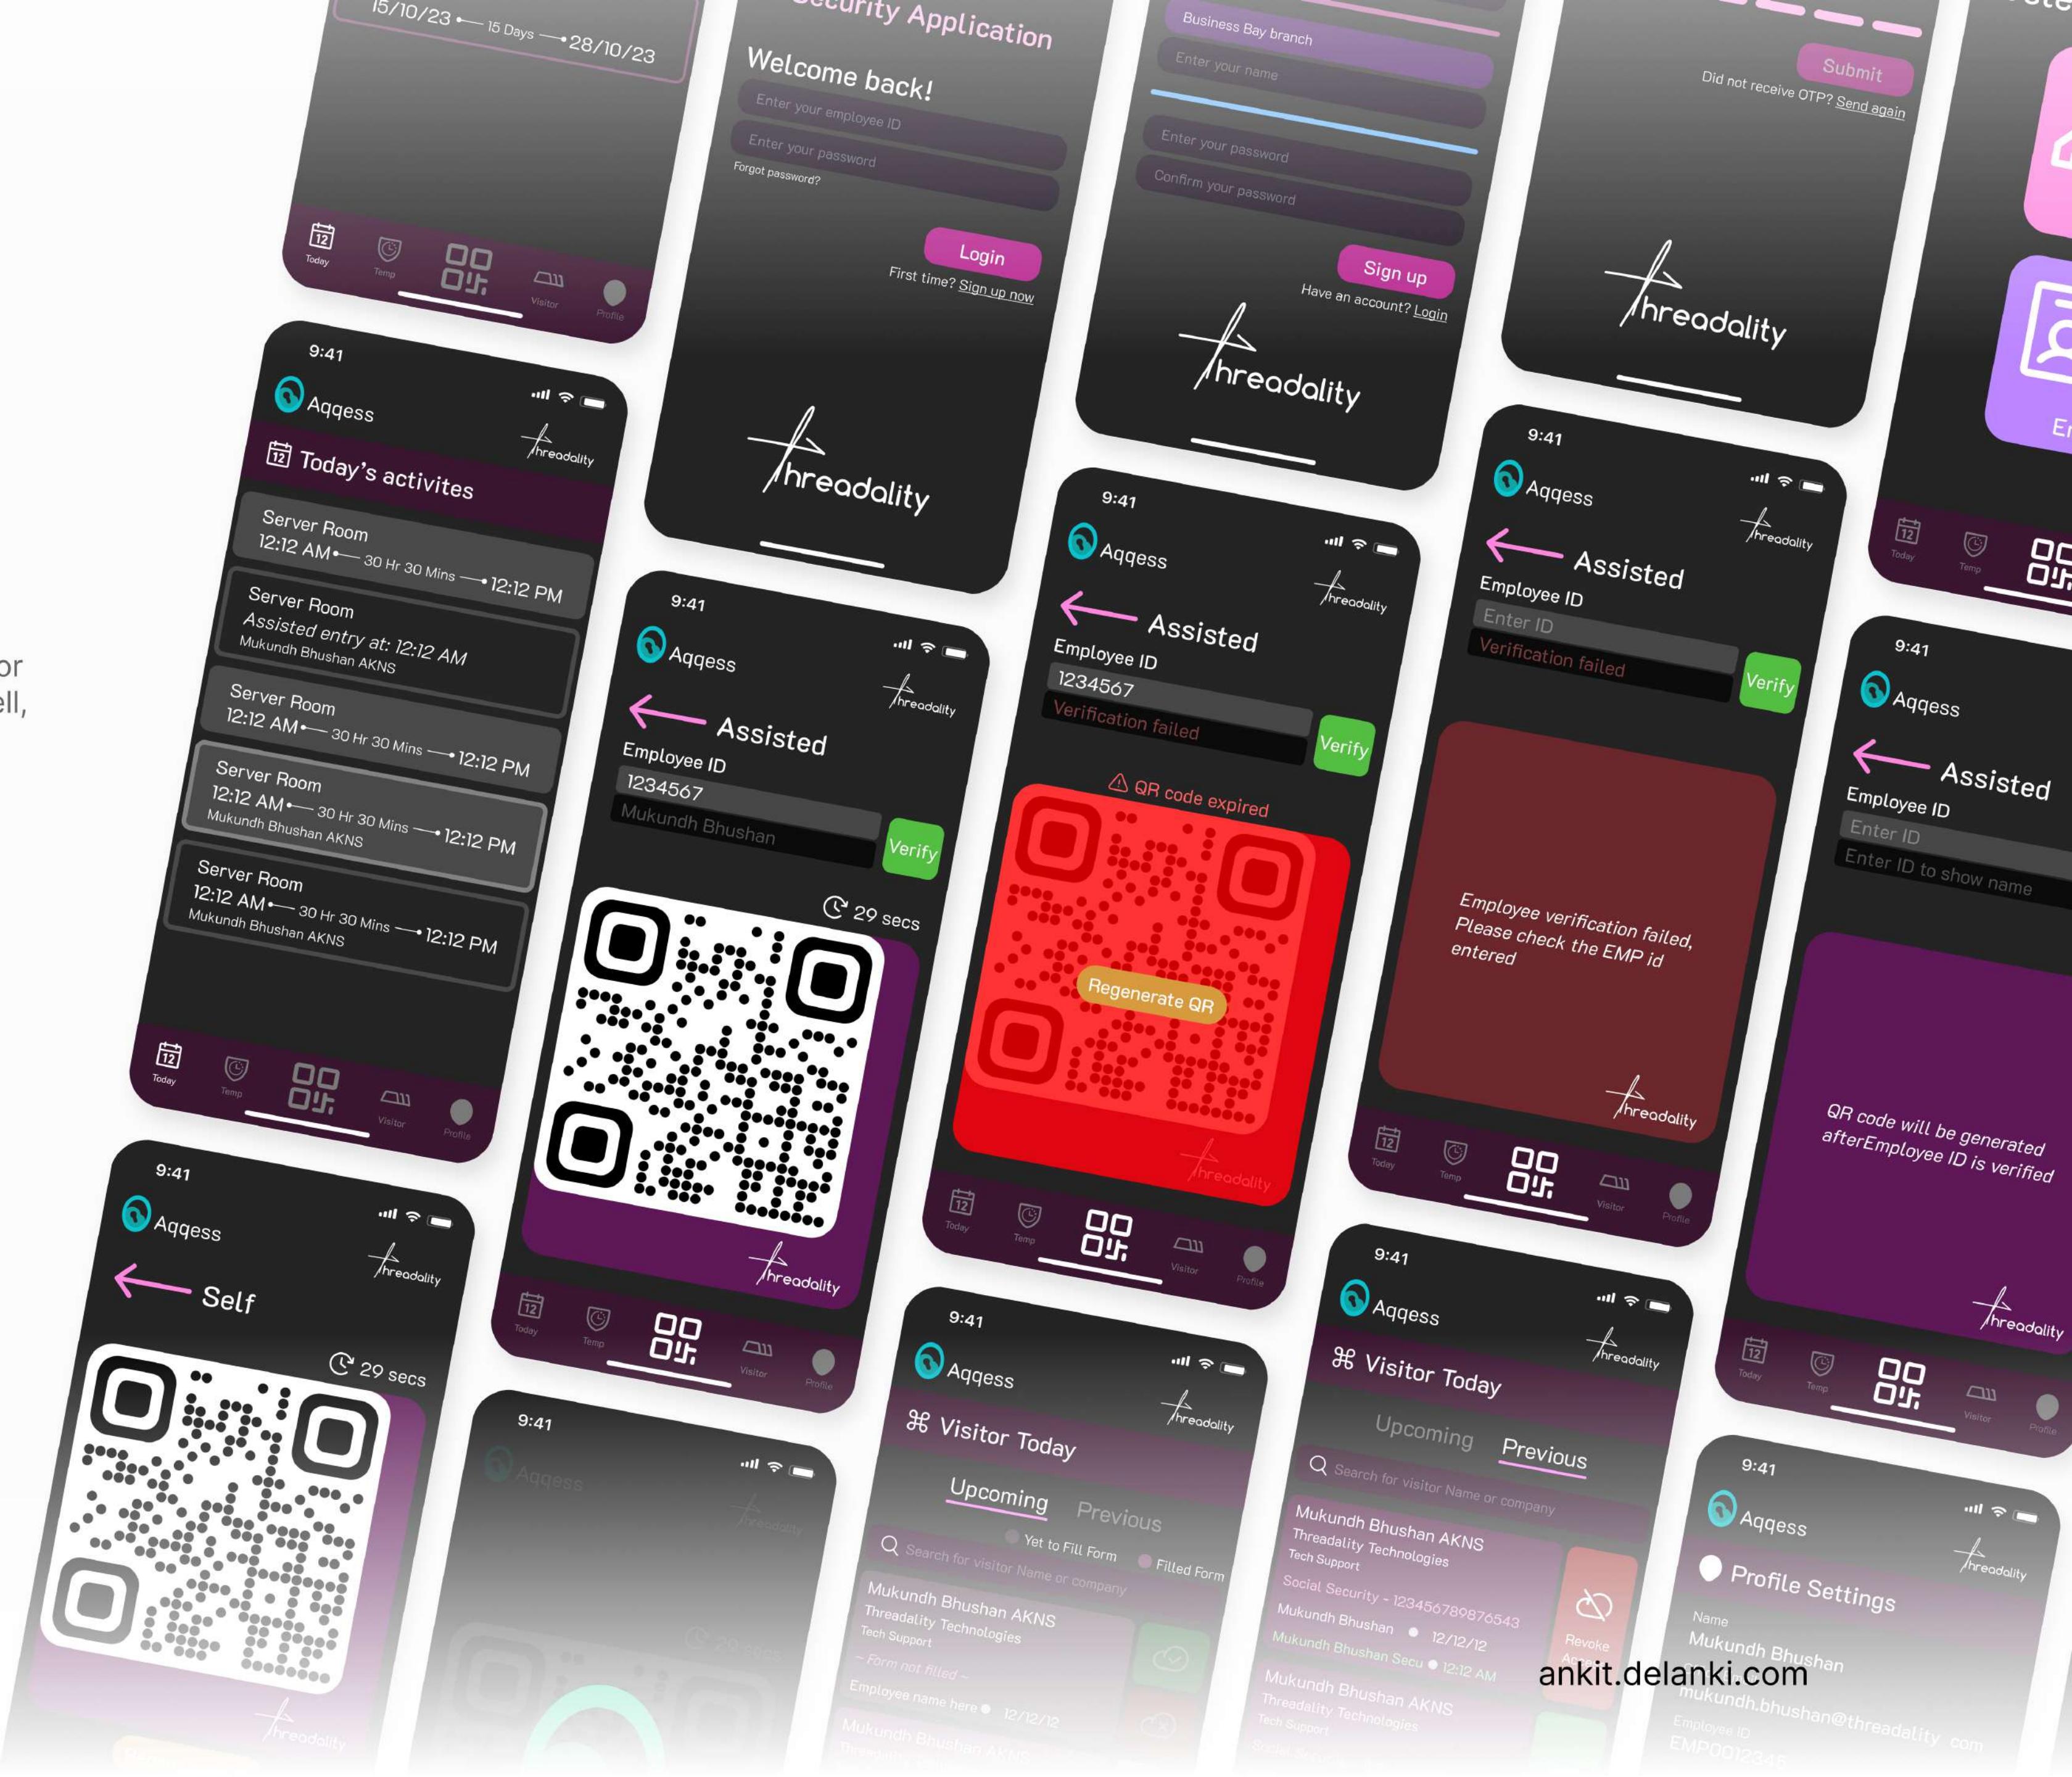

- Company Admin Login:** Shows a login form with fields for "Alpha-numeric value" and "Numeric value", both ending in ".aqress.com". It includes a note: "Enter Your company code If you have misplaced ask a colleague or branch admin".
- Employees:** Shows a list of employee requests under "Past Access". One entry is for "User One" (Employee ID: emp002, Employee Email: userone@email.com) with details: Request Date 18/10/23, Location Server East, Date Requested 25/10/23, Purpose option 3, Request Type Sector, Status Accepted. Other entries show incomplete data, testing number of days, and rejected requests.
- Employees:** Shows a list of employee requests under "Temporary Access". One entry is for "User One" (Employee ID: emp002, Employee Email: userone@email.com) with details: Request Date 18/10/23, Location Server East, Date Requested 19/10/23, Purpose option 2, Request Type Sector, Status Rejected Admin.
- Employees:** Shows a list of employee requests under "Denied Access". One entry is for "User One" (Employee ID: emp002, Employee Email: userone@email.com) with details: Request Date 17/10/23, Location lobby, Date Requested 17/10/23, Purpose testing number of days, Request Type Sector, Status Rejected Admin.
- Temporary Access:** Shows a list of temporary access requests. One entry is for "User Three" (Employee Name: User Three, Sector Name: Server North) with details: Request Date 18/10/23, Employee Name User Three, Sector Name Server North, Date Requested 19/10/23.
- Branches:** Shows a list of branches. One entry is for "Andhra Pradesh" (Country: India, State: Andhra Pradesh, Branch: Hyderabad) with details: Country India, State Andhra Pradesh, Branch Hyderabad.

Watermarks for "Fennes nibble by Threadality" are visible on several screens.

To enhance ease of use and improve the user experience for employees, integrated a Progressive Web App (PWA) as well, that allows employees to easily access and manage their Aqqess profiles.

This led to increased user engagement and encouraging employees to adopt the platform, ultimately reducing support requests.

Rekindle Club

As a frontend developer, I tackled the challenge of enhancing Rekindle's App to provide a renewed opportunity for love after life-changing events like divorce, widowhood, or separation.

By revamping the frontend using React Native with a user-friendly interface, a robust matching algorithm, and secure features, I helped Rekindle effectively cater to this specific demographic.

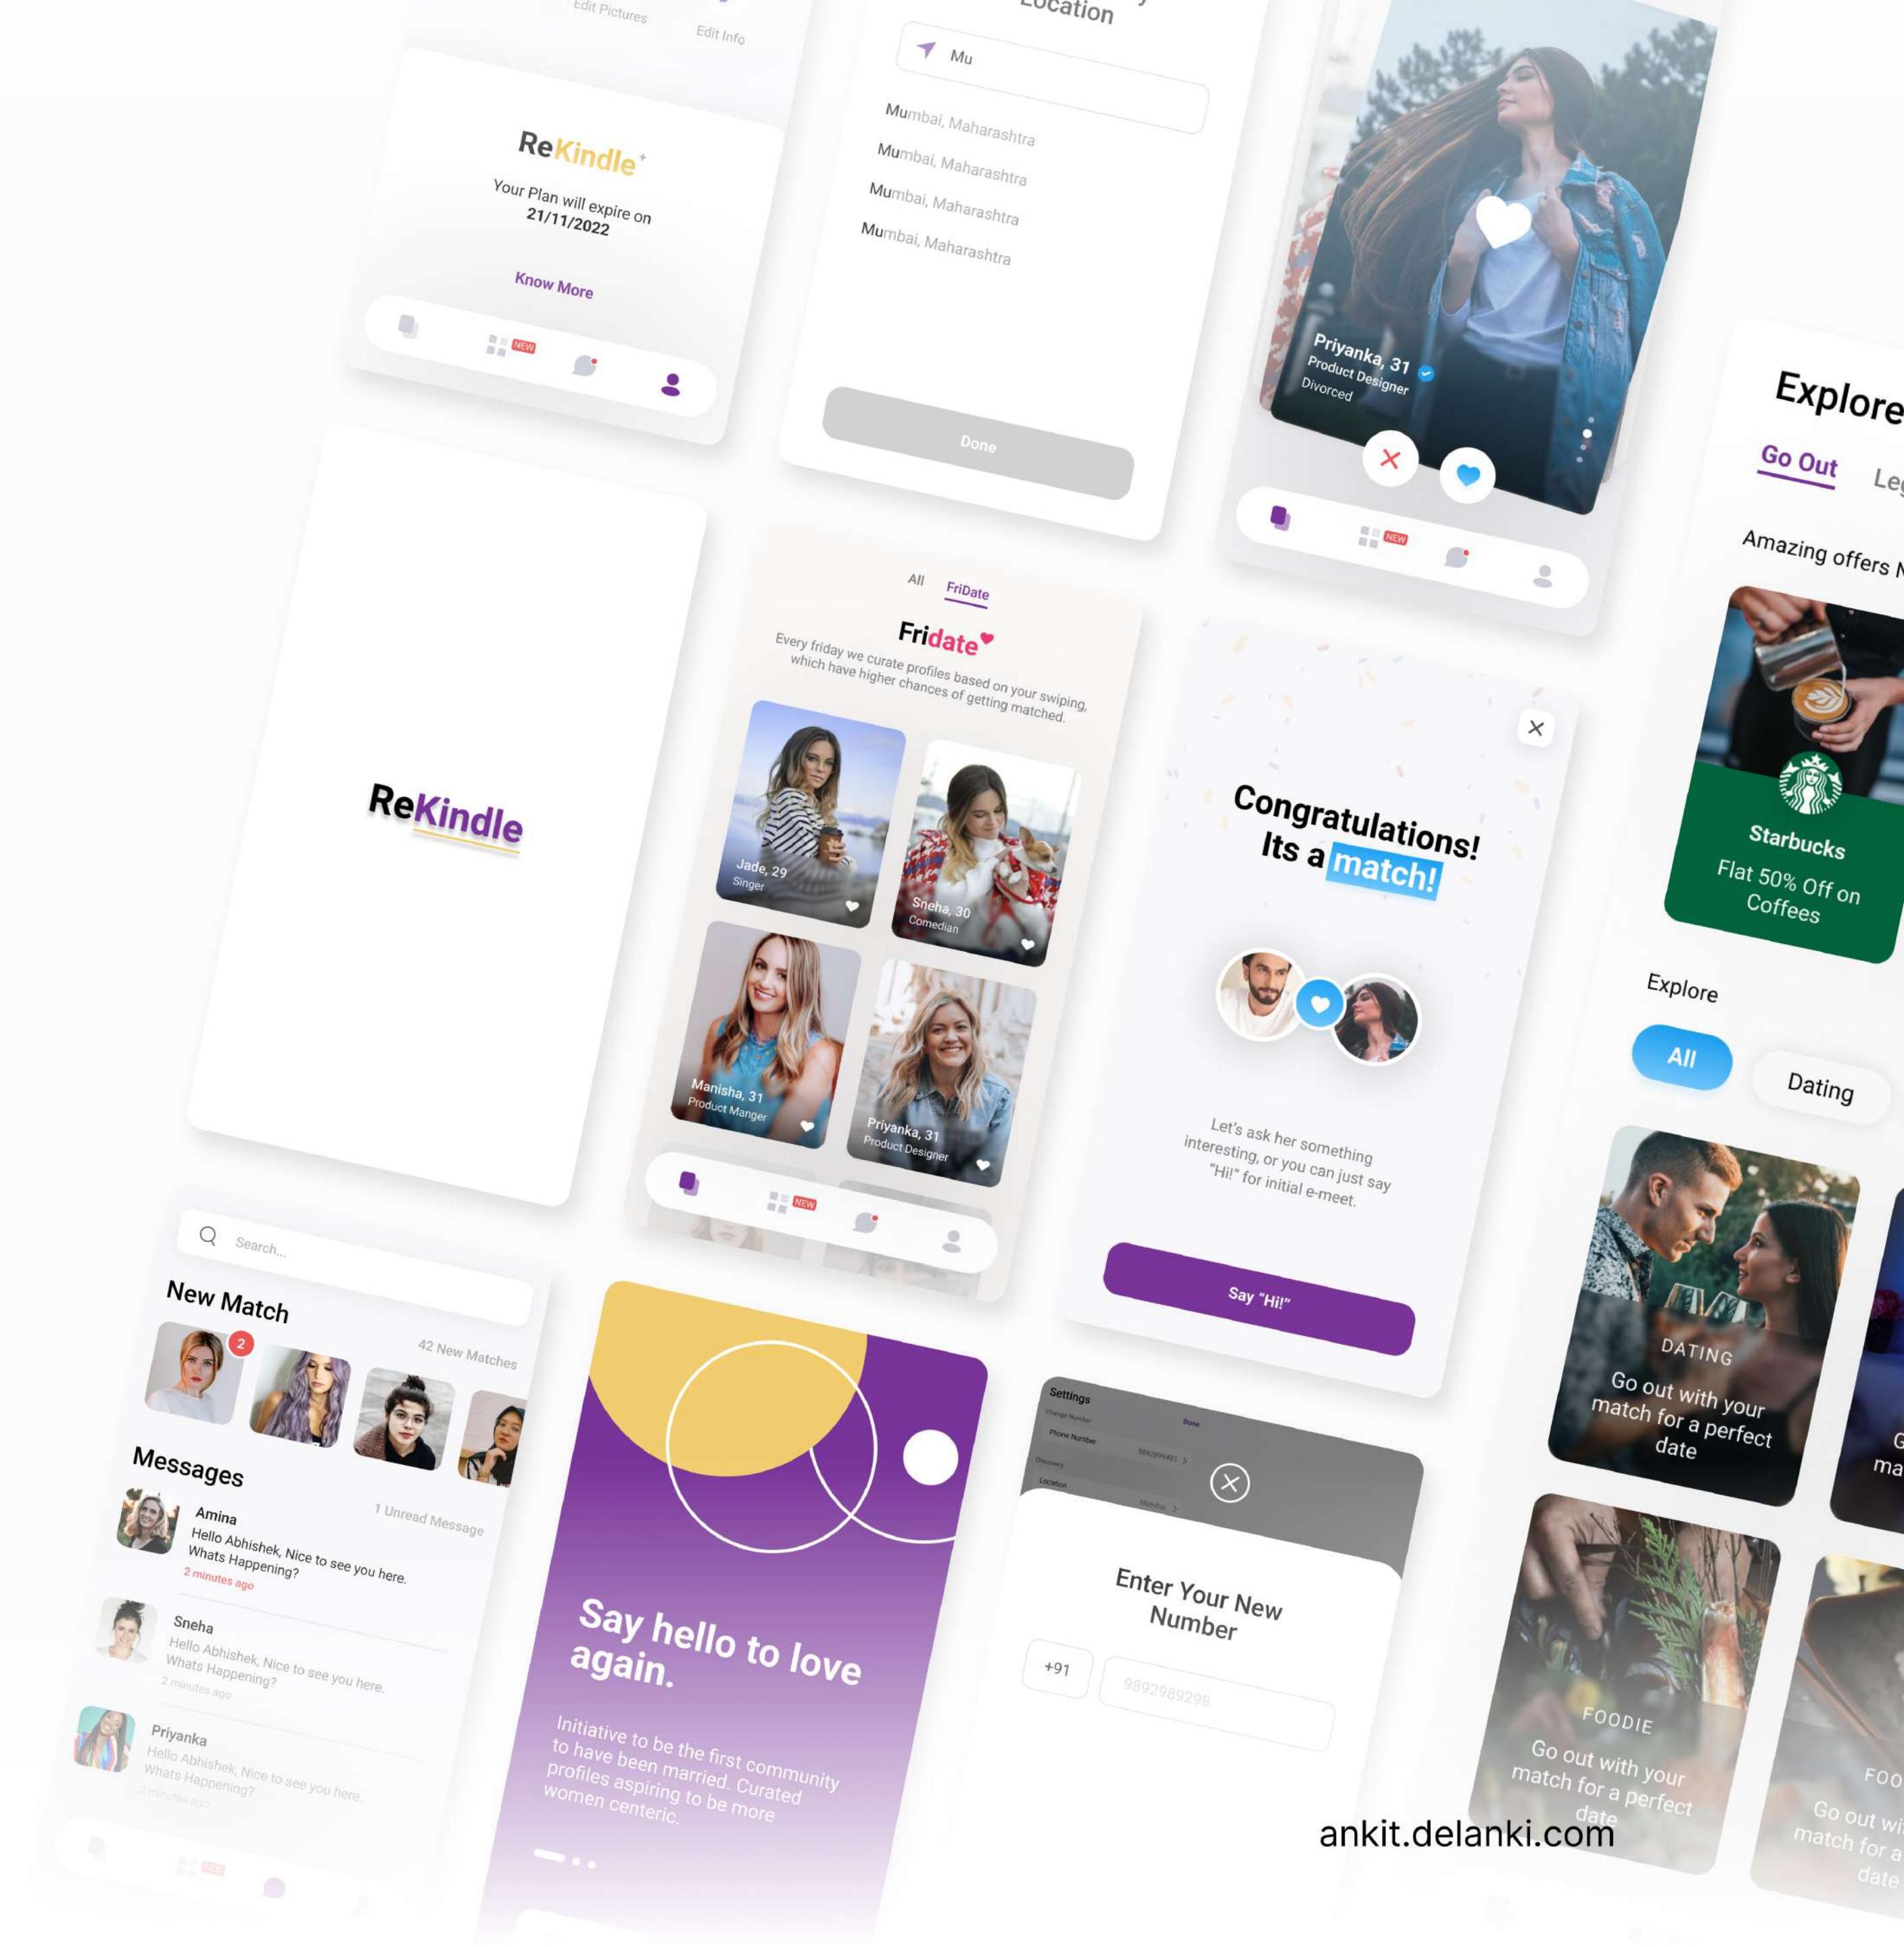

This initiative led to a remarkable 180% increase in revenue compared to the previous year and a 74% rise in subscription rates, showcasing its success in facilitating meaningful connections and relationships among users.

Core Features

- Unique Niche
- Fridate - Personalized profile recommendations
- Subscription Model & Restrictions
- Cross-platform Compatibility

Role Included

- UX Research
- Frontend Development
- Android and iOS App Deployment

ANIKIT PORTFOLIO

Byrds

Grow Greener Today

Byrds offers Greentech as a SaaS platform enabling companies to offset carbon emissions through tree planting and algae initiatives, effectively managing and reducing their environmental impact.

Leading a team of 5 developers, I developed the frontend of a client-side application. Through user research, enhanced engagement by adding features such as daily streak, real time plantations on map and goal achievement, alongside implementing micro animations that leads to smoother user experience.

Efficiently utilized React Query and Redux to optimize API calls, reducing server load by preventing unnecessary requests and enhancing overall application performance.

Core Features

Carbon Footprint Monitoring
Admin & Client Applications
Real-time Plantation Updates

Role Included

UX Research
Frontend Development
Team Leadership

The image displays five screenshots of the Byrds SaaS platform:

- Login Screen:** Shows a dark-themed login form with fields for "Admin Email ID" and "Password". It includes links for "Forgot Password" and "Not signup yet? Signup now". A background illustration of green plants is visible.
- Dashboard:** A complex dashboard with various metrics and cards. Key elements include:
 - "Good Evening! Ankit Sugoi Labs"
 - "Eco echos recently": SL Echo One (2 total eco echos, a few seconds ago), SL Echo Two (37 calls today, 2 minutes ago)
 - "Garden": 263 Trees
 - "Puddle": 39 Algae
 - "Branches and roots": 1685 Kg Carbon Reduced
 - "Eagle Eye": Watch API calls and plantations across the globe live (Total Calls across Byrds: 302)
 - "Portal Interaction": Current streak (1 Day(s)), Longest streak (The Red, 16/02/24 - 16/02/24)
 - "Endpoints": Counter ← update
- Leader Board:** A section titled "Leader Board" showing company achievements. Examples include:
 - Byrds soaring the skies: Cleaner By 196 Algae
 - Greener By 851 Trees
 - Stronger By 8706 Area (Sq ft.)
 - Lighter By 4202.5 Kg Carbon
 - Growing By 2 Companies
- World Map:** A map of the world showing global plantation activity. It includes sections for "Live Calls" and "Plantations".
- Company Profile:** A profile for "Sugoi Labs" located in Bangalore Urban, Karnataka, India. It shows 4 Posts and a bio about the person behind the "Explore mountains" initiative.

Sugoi Labs, Bangalore Urban, Karnataka, India

Hi, I am Martin - the person behind the "Explore-mountains" initiative. I am currently balancing a job in the IT industry and project management with something I truly love - a more authentic contact with people in the nature. My journey has taken me so far to over 25 countries on four continents, including India, South Africa, Morocco, Austria (the Alps), Portugal, the USA and others. Having worked as a skiing and windsurf instructor, I've now continued my life trip with a year-long course to become an accredited mountain guide. This adds new skills to a passion that

Corner Qube

A B2B review platform

Businesses often struggle to gather, manage, and respond to customer reviews efficiently. This affects their ability to build a strong online reputation and improve customer satisfaction.

As a frontend developer in a team of 4 people, I helped develop the application by created a simple, intuitive interface for businesses to create review requests, track feedback, and respond to reviews in one place.

This led to a 50% faster response time to reviews and a 40% increase in customer satisfaction. Additionally, it improved online reputation by 30% and boosted data-driven product improvements by 25%.

Core Features

- Client & Admin Panel
- Review Management
- Analytics
- Unique domain for individuals

Role Included

- Frontend Development
- Team Contributor

ANKIT PORTFOLIO

The image is a collage of screenshots from the Corner Qube application, showcasing its various features:

- Login Screen:** Shows fields for Email and Password, a LOGIN button, and a Forgot Password link. It also includes a "Don't have an account? Signup" link.
- Welcome Back!**: A splash screen with a colorful geometric pattern and a "Welcome Back!" message.
- Dashboard:** Displays a bar chart titled "Number of firms" across four sectors: Information Technology, Aerospace, Agriculture, and Transport and Mobility. It also shows line charts for "From Corner Qube", "From Advertisement", "Know Contact", and "Others". A note says "Contract Mng." and "Build (development, manufacturing)". A message at the bottom says "Now You Can Also Remove clients from list!!".
- Reviews:** A detailed review page for a client. It includes a radar chart with categories like Cybersec. Mng., Resource Mng., Delivery Mng., Contract Mng., Vendor Mng., and Stakeholder Mng. The review text asks about past work and future collaboration, listing services like Business Analysis, Cloud Solutioning and Design, System Analysis, and Solution Design.
- Projects:** A list of projects including "Draft Jai Labs" (client rating 0, vendor rating 0), "Sugoi Labs" (client rating 5.0, vendor rating 5.0), and "tset" (client rating 1, vendor rating 1).
- Clients:** A circular chart titled "Clients Services" showing the distribution of services provided.
- Admin Panel:** A sidebar menu with options like Dashboard, Clients, Vendors, Projects, Enquiries, Report, Requests, Reviews, Company Info, Access Right, My Profile, and Billing. It also includes a "Logout" button and a note for "Admin" users.
- Company Info:** A section showing company details such as "Bill To: Sugoi Lab Bengaluru", "NO. 1", "Payment Meth: VISA MasterCard", "Terms & Condition: Please complete", and "GSTIN: Threadality Techno".

Love Alarm 2.0

Inspired by Webtoon and the Love Alarm series concept, allows user to ring alarm of the person that you like within 10 meter radius, I designed and developed Love Alarm 2.0 to overcome the limitations of 10-meter radius location-based profile access and user managed preferences, choosing whom they want to ring with just one tap—a step closer to the original concept.

I implemented chat support and background alarm ring for real-time interaction and integrated interactive micro animations to boost user engagement. Additionally, internationalized the app by translating it into 11 languages, including Korean, Dutch, Hindi, and others, catering to a global reach.

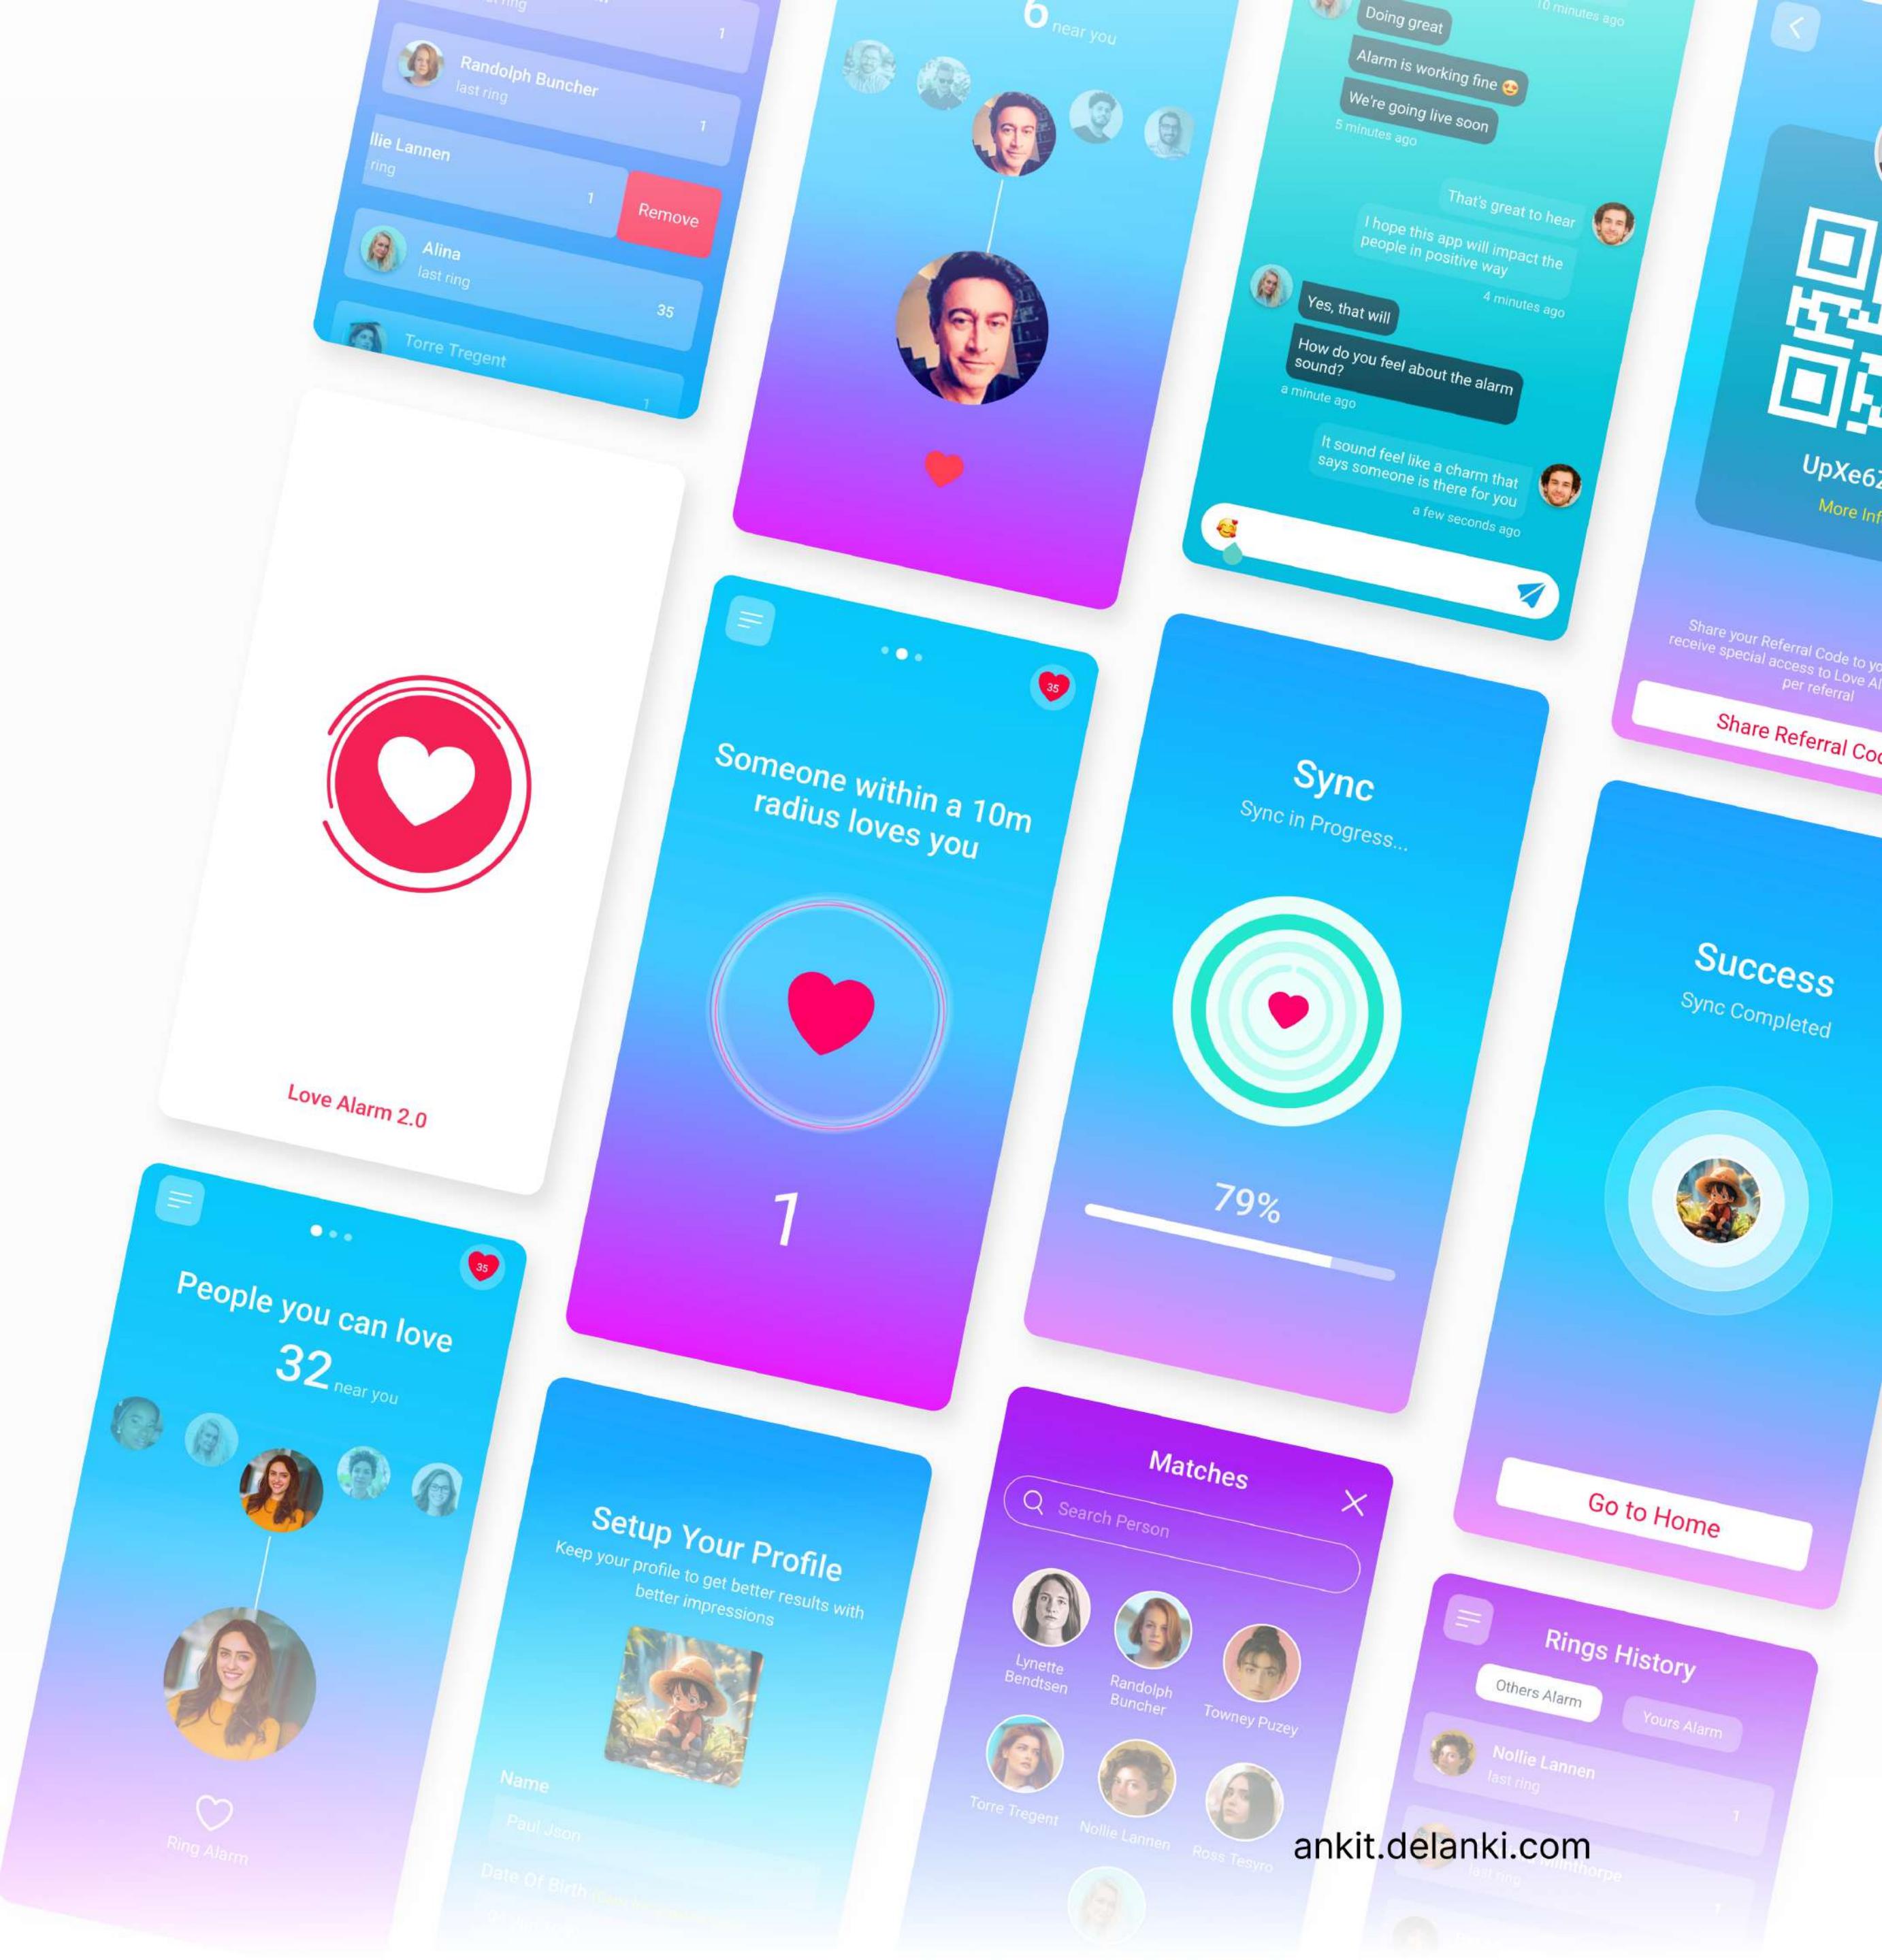

The features and usability led to a substantial increase in user satisfaction, engagement, and global reach, resulting in more than 50,000 installations and 10,000 active users for the app.

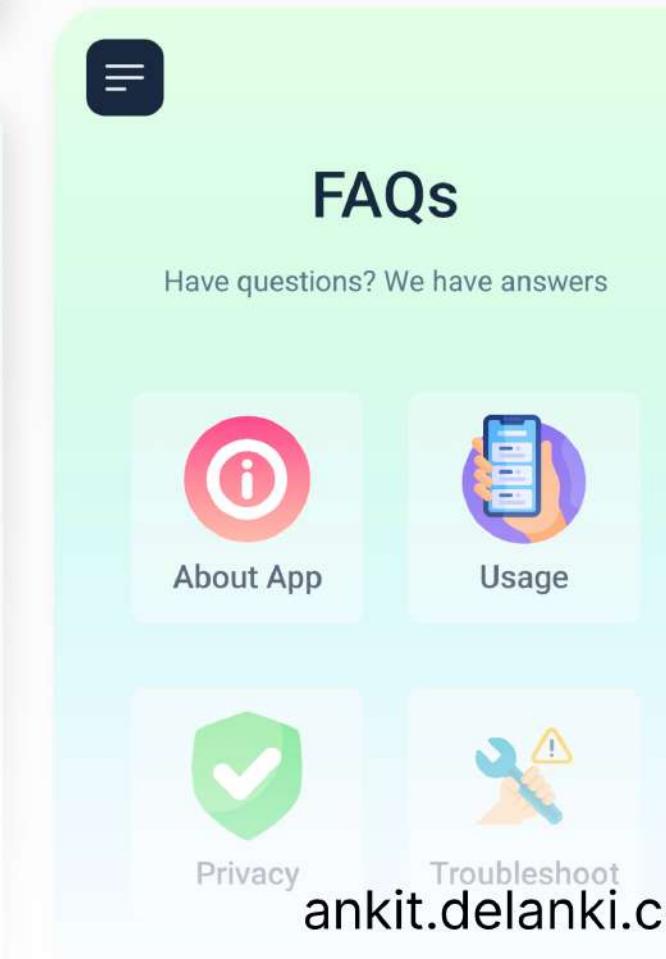

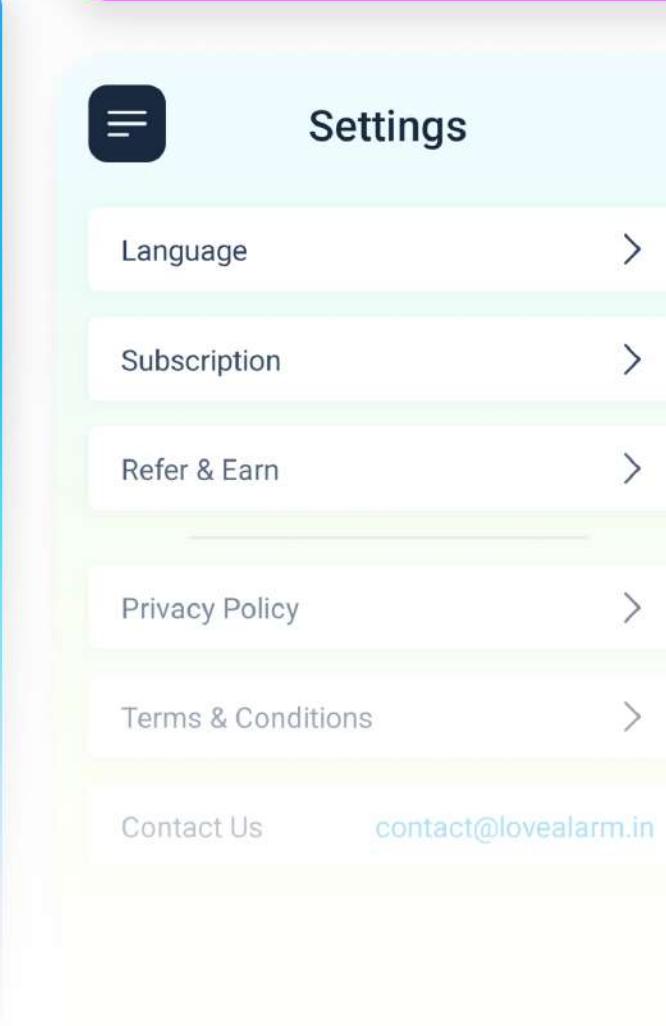

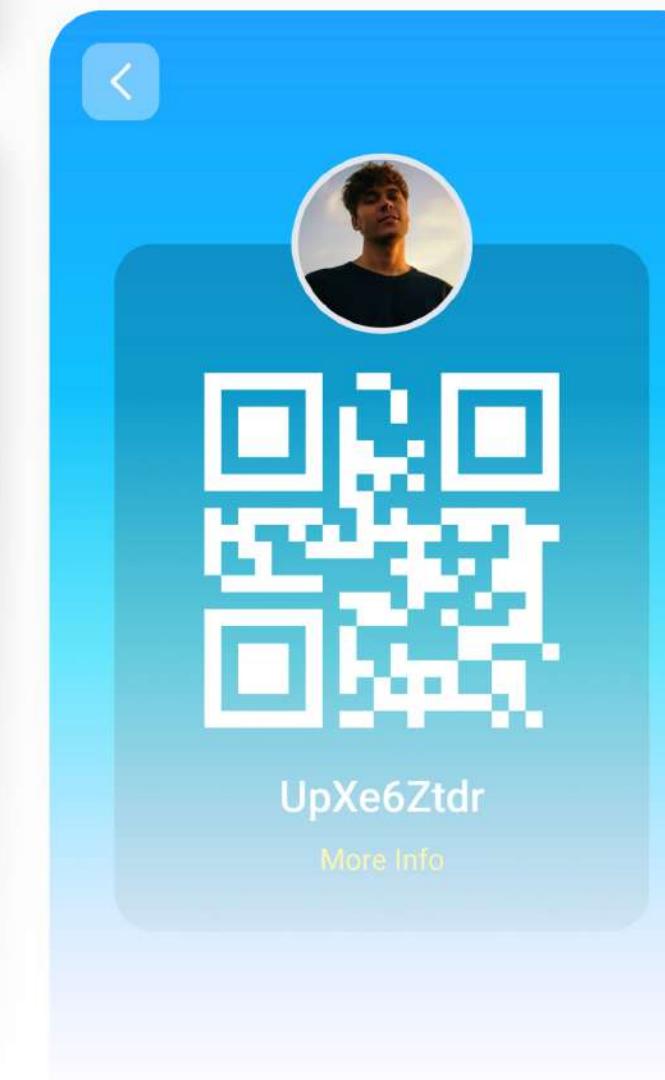

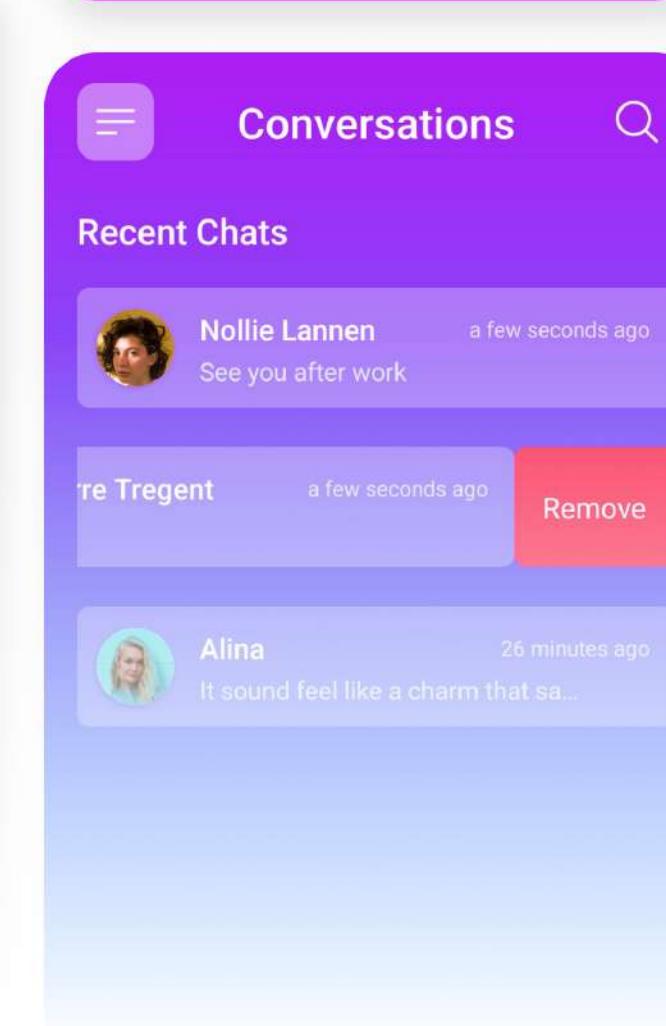

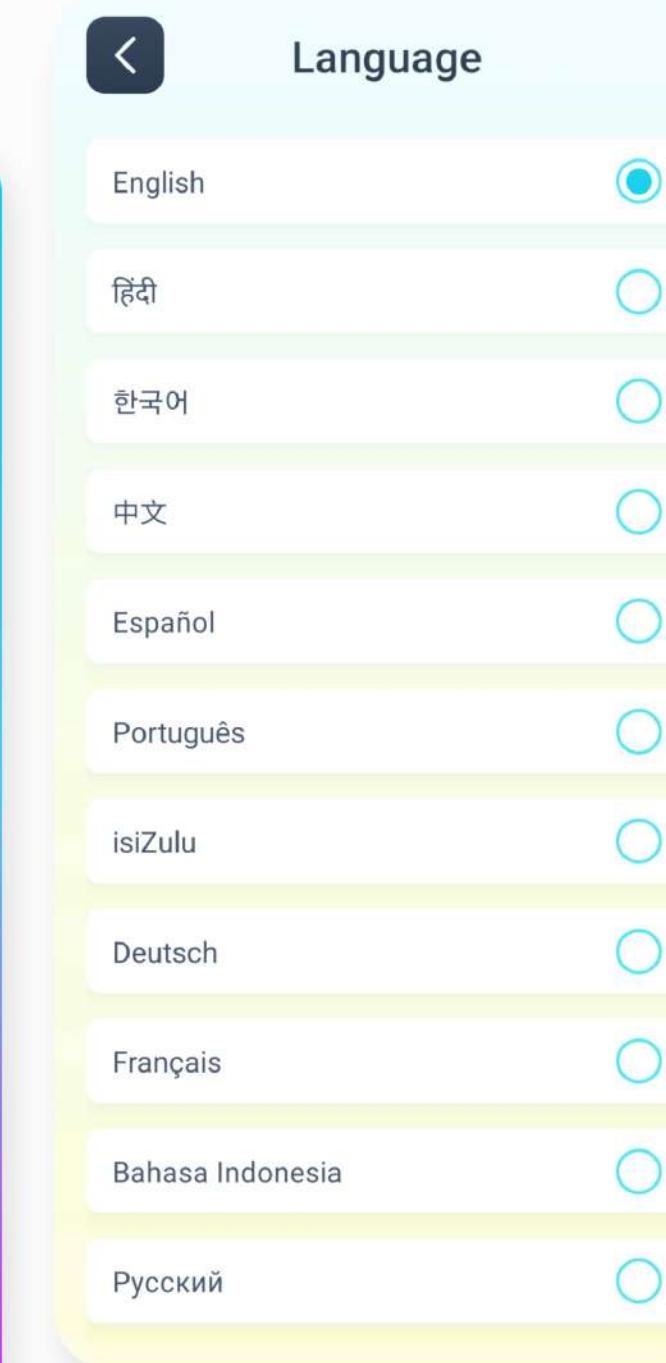

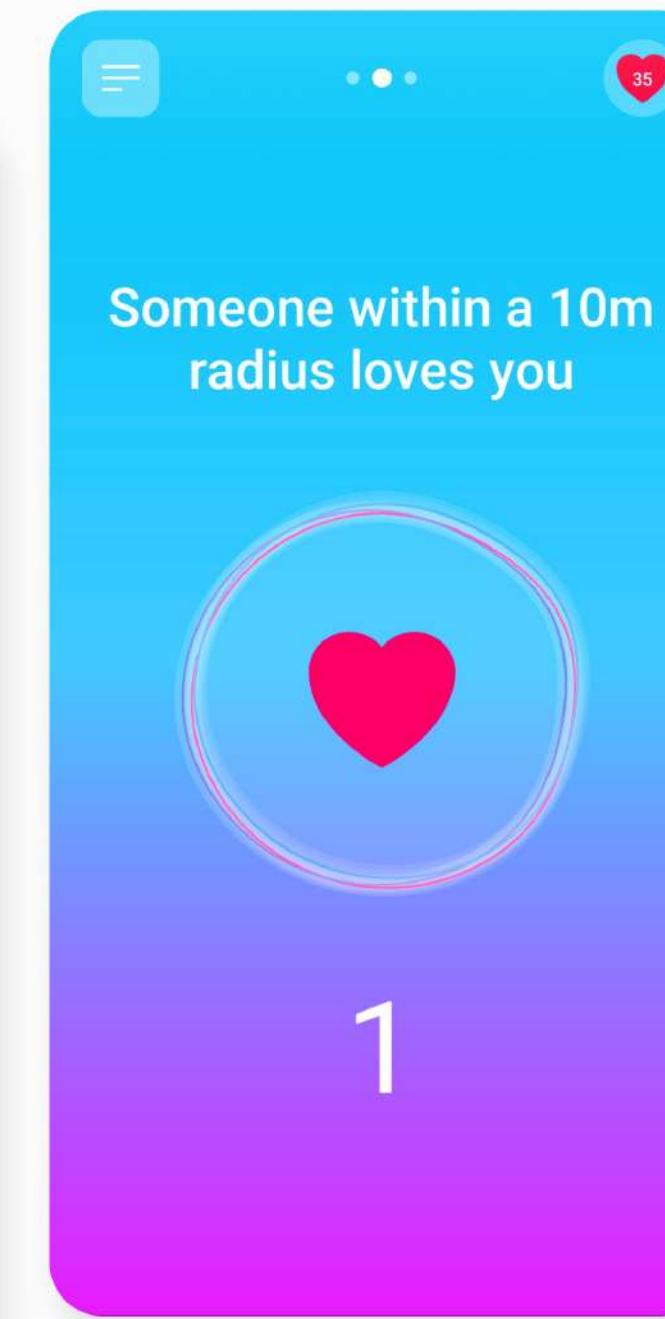

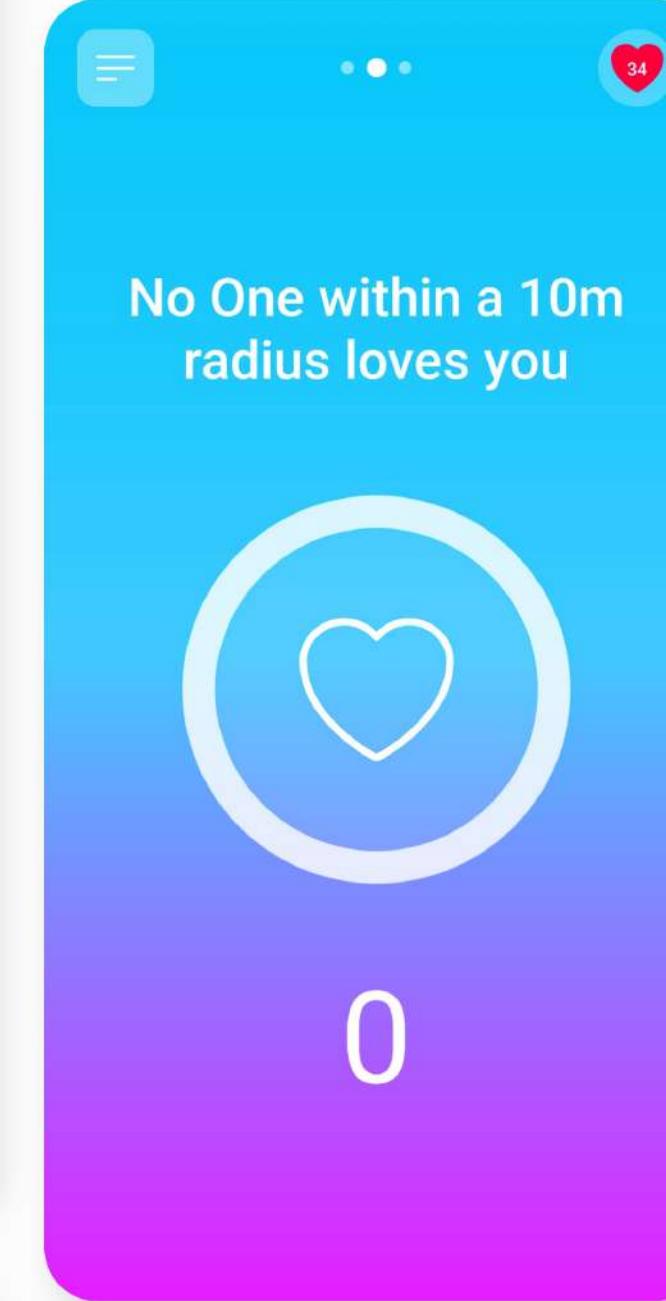

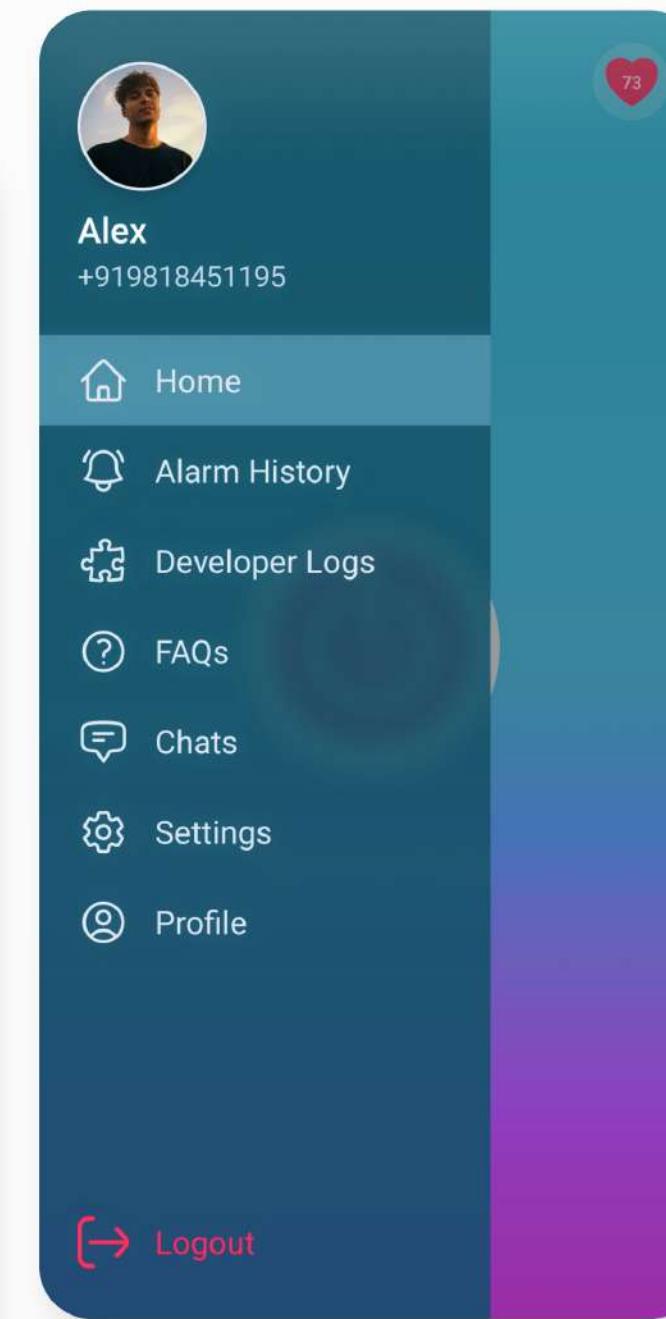

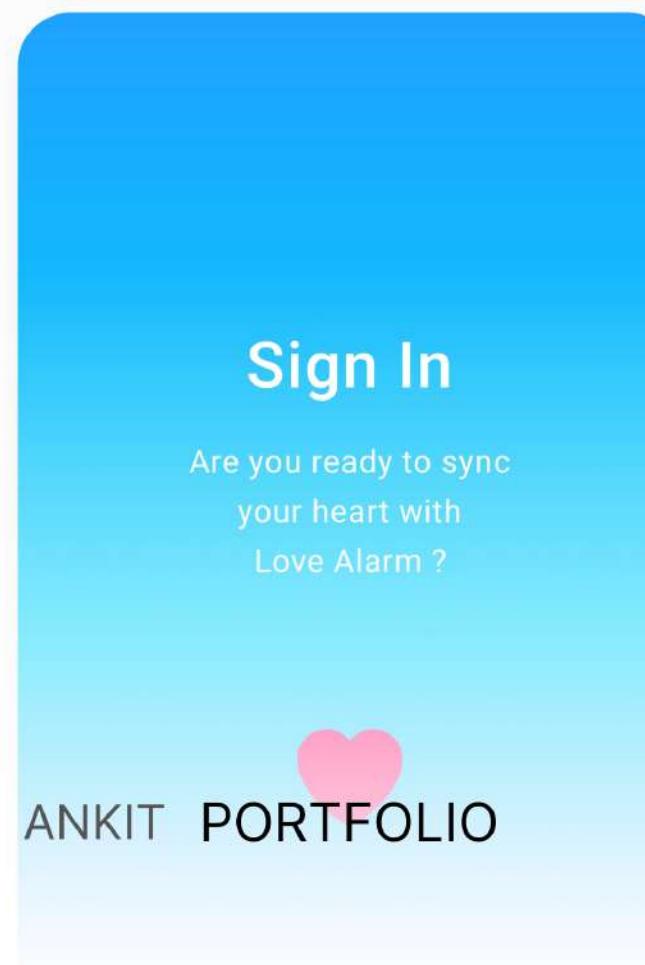

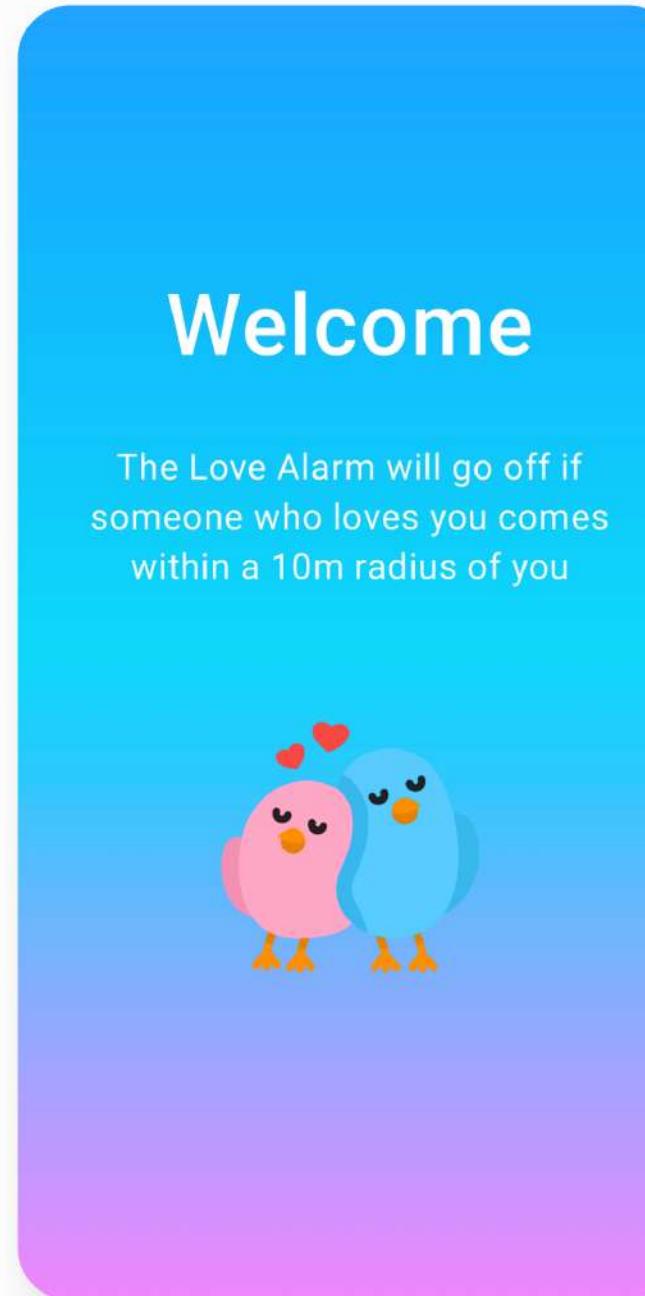

Core Features

- Unique Niche
- Ring Love Alarm within 10 meters radius
- Background support
- User controlled Alarm management
- 11 language support

Role Included

- UI/UX Research
- Product Owner
- Full Stack App Development

ShareBook

At ShareBook, I believe everyone should have free access to books. The initiative encourages sharing books within the community, making reading and learning accessible to all, regardless of financial status, through book sharing among nearby users.

Developed a web app for sharing and obtaining books at no cost, provides a diverse range of titles without the hassle of buying or selling. The platform connects you directly with nearby individuals who are willing to share their books, making it easy and convenient to find the books you need.

ShareBook excels in accessibility, usability, and responsiveness, ensuring seamless book sharing and borrowing experiences for all users.

Core Features

Rapid book acquisition
Promotes Kindness and Sharing
No monetary transactions involved

Role Included

UI/UX Research
Product Owner
Web App Development

ANKIT PORTFOLIO

The collage consists of several overlapping screenshots of the ShareBook web application:

- Top Left:** A book listing for "PYJAMA-PROFIT" by Ankit Maurya. It shows the book cover, location (Delhi), condition (2 months old), and a summary: "Pyjama Profit is a guide for millennials to get started with a self-sustained online freelance practice, while developing their skills needed to succeed. The book talks about in-demand online skills and the different paths one can take to become an expert in these fields." There is also an "Agreement" checkbox and a "Download Agreement" link.
- Top Right:** A user profile for "Ankit Maurya" showing applicant information, verified user status, user name (Ankit Maurya), email address (ankit628792@gmail.com), password (redacted), contact number (9818451195), city location (Dwarka City), and a bio: "I am designer & developer of this sh...".
- Middle Left:** A "Books Shelf" page displaying a grid of book cards. Examples include "microprocessors 8085/8086 uprocessor" (Delhi), "pyjama-profit" (Delhi), "Academics Guide to Competitive..." (Delhi), "The Invisible Man" (Dwarka City), "The Hound Of Baskerville" (Dwarka City), "Advance Engineering..." (Delhi), "Th power of habit" (Delhi), and "self-help book THE POWER OF HABIT" (Delhi).
- Middle Right:** A messaging interface between users "Yash Kumar" and "Ankit Maurya". Yash Kumar is loading a message. Previous messages include "mujhe yeh book nhi mil rahi" (2 years ago), "Hello bhaiya" (2 years ago), "Hi bhaiya" (2 years ago), and "ankit.delanki.com" (2 years ago). There is also a message from "Kumar Ankit" asking "the book?" (2 years ago).
- Bottom Left:** A detailed view of a book listing for "THE INVISIBLE MAN" by H.G. Wells. It shows the book cover, location (Dwarka City), condition (4 Years Old), and a summary: "A science fiction based novel summary by H.G. Wells. Included the both Hindi and English language. If you are sci-fi & thriller story lover than don't miss this book. This book is with fantastic science fiction story with many logic. The story is about a Invisible Man to whom the title refers is Griffin, a scientist who has devoted himself to research into optics and who invents a way to change a body's refractive index to that of air so that it neither absorbs nor reflects light and He carries out this procedure on himself and renders himself invisible, but fails in his attempt to reverse it. As a practitioner of random and irresponsible violence, Griffin has become an iconic character in horror fiction."
- Bottom Right:** A screenshot of the ShareBook website URL "ankit.delanki.com".
